

Bradford LOC would like to invite you to the annual Winter Course on

Monday 15th January 2018,

Registration from 8:45am, Start 9:00am, End 12:45pm

Richmond Building, University of Bradford

Bradford, BD7 1HR

Keynote Lecture: Myopia Control
Professor Edward Mallen
1 CET point for Optoms & DOs

Peer Discussion
Candour, Consent and Complaints
3 CET points for Optoms & DOs

As new GOC Practice Standards came into force last year, this peer discussion session led by Richard Edwards, Consultant at the OCCS, will outline the key trends from the OCCS over the past two years. We will also share insights and learnings from these real cases and enable delegates to build strategies to avoid similar occurrences.

Also there will be updates on:

- Capita; a representative will discuss the introduction of eGOS and answer questions regarding payment issues.
- Changes to our Referral Refinement service in response to NICE Guidelines 81 for Glaucoma
- Changes to cataract post-op reporting for BRI patients
- Preparing the business case for a Minor Eye Conditions Service; How many patients would we see?

This event is free for DOs and Optometrists working in Bradford and Airedale, so please share with colleagues.

Registration is essential; to register or for information please email:

Secretary@BradfordLOC.co.uk

With your GOC number and practice.
